POLYFORZA™ DRIP EDGE
DRIP EDGE FOR BUR/MODIFIED SYSTEMS

PRODUCT DESCRIPTION

PolyForza Drip Edge is a convenient and economical drip edge system. Its concealed splice plate design prevents migration under the cover panels and provides proper spacing for thermal movement of the material. PolyForza Drip Edge is specifically designed for use with APP and SBS torch-applied assemblies.

FEATURES AND BENEFITS

- Provided in 12'–0" lengths with pre-punched holes for quicker installation and lower labor cost.
- Slotted fastening holes to allow for proper thermal movement of the materials and ensure correct fastener placement and spacing.
- Factory fabricated miters and accessories provide a cleaner, more aesthetically pleasing appearance. This eliminates the need for field fabrication, providing time and labor savings.
- All splice plates, gutter hangers, and fasteners are included.
- Additional accessories included are:
  - 24 ga. steel or .040" aluminum splice plates
  - 22 ga. galvanized steel continuous cleat
  - All required fasteners
- Radius is available to meet the unique needs of each project.

APPLICATION INSTRUCTIONS

See PolyForza Drip Edge Installation Instructions.

MANUFACTURING FACILITIES

- Fernley, NV
- Hazleton, PA
